CORE FOCUS • VISUAL DEVELOPMENT LEAD

Concept Artist & Visual Development Lead with **5+ years of experience** crafting characters, environments, and keyart for **VR, PC, and console games**. Specialist in end-to-end production pipelines — from initial thumbnailing and value studies to **3D blockouts, PBR texturing, and technical handoff sheets** for downstream 3D/Tech Art teams. Versatile across stylized and realistic aesthetic directions.

PROFESSIONAL EXPERIENCE

// STUDIO & PRODUCTION RECORD

Freelance Concept Artist & Visual Developer
Independent Consultant • Montréal, QC

2025 – PRESENT

Keyart Illustration Character Turnarounds Sci-Fi & Fantasy

Executing moodboards, environment keyframes, and character turnarounds for indie and mid-size studio clients across hard-surface sci-fi and fantasy genres.

Little Guy Games
Lead Concept Artist (Visual Development & Production Pipeline)

NOV 2021 – AUG 2025

- SHIPPED PROJECTS:** Home Run Derby VR (Meta Quest) Wings of Wanitu
- Led **visual development and art direction for 2 VR titles**, establishing core visual language, moodboards, color scripts, and blue-sky concept art from brief to final IP.
 - Produced **30+ production-ready character and environment assets** with detailed orthographic views, material callouts, and functional breakdown notes for 3D teams.
 - Accelerated 3D asset creation by executing **3D base blockouts in ZBrush and Blender**, overpainting lighting and material responses for rapid 3D art team handoff.
 - Delivered hero key art, promotional illustrations, and marketing assets, maintaining art fidelity across internal pitch decks and public storefronts.
 - Conducted daily paintovers and art reviews with 3D modelers and tech artists, **resolving proportion, silhouette, and engine lighting discrepancies** early in sprint.

Cosmic Games Studio

OCT 2019 – NOV 2020

Lead Concept Artist

PROJECT: STARQUEST (Stylized Sci-Fi RPG)

- Spearheaded **visual world-building for Starquest's sci-fi universe**, creating atmospheric environment paintings, thumbnail explorations, and keyframes.
- Designed hero and NPC characters from initial silhouette thumbnails to final render sheets, delivering expression guides and orthographic turnarounds.
- Engine-integrated 2D/3D environment assets using **PBR workflows**, setting up material responses and scene staging in **Unreal Engine 5**.

Telus Digital

JAN 2019 – APR 2019

Visual Designer & Illustrator
