647-766-3014

Montréal, QC, Canada

EXECUTIVE PROFILE & CORE FOCUS

UI/UX Designer with **5+ years of experience** designing intuitive HUDs, player flows, and scalable UI systems for **VR, PC, and console games**. Proven track record bridging design craft and technical execution in **Unreal Engine 5 (UMG)**, from Figma prototypes to performance-optimized engine implementation. Skilled in accessibility, spatial interaction, and AI-accelerated design workflows.

PROFESSIONAL EXPERIENCE

CHRONOLOGICAL RECORD

SKILLS & TECH STACK

Freelance / Contract UI/UX Designer

2025 - PRESENT

Independent Consultant • Montréal, QC

Spatial UI Prototypes Figma + Claude/MCP UMG Widget Generation

- Designing responsive game UI components, player onboarding flows, and spatial UI prototypes for unannounced client projects.
- Leveraging **AI-assisted prototyping (Figma + Claude/MCP)** to accelerate layout iteration and front-end UMG widget generation.

Little Guy Games

NOV 2021 - AUG 2025

Lead UI/UX Designer (Toronto, ON)

SHIPPED PROJECTS: Home Run Derby VR [Meta Quest]

Wings of Wanitu

- Architected end-to-end VR HUDs, player interaction loops, and spatial menu systems for Home Run Derby VR on Meta Quest, **passing Meta VRC compliance on first submission**.
- Built modular UI component libraries and production UMG prefabs in Unreal Engine 5 & Figma, **reducing layout iteration time while optimizing draw calls** for strict VR memory budgets.
- Spearheaded user research and WCAG accessibility standards, introducing **adaptive control layouts, high-contrast UI modes**, and telemetry-driven HUD ergonomics.
- Established **Git/GitHub version control workflows** for UI assets, enabling clean branching, cross-disciplinary asset slicing, and seamless dev team integration.

Cosmic Games Studio

UI & Visual Development Artist (Toronto, ON)

OCT 2019 – NOV 2020

PROJECT: STARQUEST (Sci-Fi Action Title)

- Designed in-game graphic assets, diegetic UI elements, vector iconography, and menu layouts for a sci-fi universe, **ensuring 100% visual cohesion with core IP**.
- Partnered with graphics programmers to establish 2D-to-3D asset pipelines, **optimizing UI texture compression and material instances** for real-time rendering.
- Created interaction flowcharts and screen state diagrams to guide engineering teams during UI feature implementation.

Telus Digital

UI/UX & Visual Designer (Toronto, ON)

JAN 2019 – APR 2019

Designed high-traffic digital interface components and design system guidelines, **ensuring strict adherence to web accessibility (WCAG 2.1 AA)** and brand standards.

ACADEMIC DEGREE

Bachelor of Design in
Illustration

2015 – 2020

OCAD University

CERTIFICATION

User Experience in Game
Design

May 2023

Epic Games / Coursera

CERTIFICATION

User Interface in Game Design

May 2023

Epic Games / Coursera

TARGET ROLE:

Game UI/UX

SPECIALTY:

VR & Spatial HUD

ENGINE:

UE5 / UMG Blueprints
